

HELP US ADVOCATE FOR BETTER CHIROPRACTIC ACCESS UNDER MEDICARE!

It only takes a moment to contact our elected officials about the Chiropractic Medicare Coverage Modernization Act.

Under current policy, Medicare arbitrarily limits seniors' access to chiropractic services. This means that patients face delays and higher health care costs to obtain covered Medicare chiropractic services.

The Chiropractic Medicare Coverage Modernization Act (S. 4042/H.R. 2654) is bipartisan legislation introduced to provide better access to chiropractic services in Medicare, remove barriers to care, and support beneficiaries. These bills would allow Medicare beneficiaries access to the chiropractic profession's broad-based, non-drug approach to pain management, which includes manual manipulation of the spine and extremities, evaluation and management services, diagnostic imaging and utilization of other non-drug approaches that have become an important strategy in national efforts to stem the epidemic of prescription opioid overuse and abuse.

We need New Hampshire's delegation to sign on as cosponsors.
